

IPC THEORY REFRESHER COURSE

APPROACH YOUR IPC FLIGHT TEST WITH CONFIDENCE

IPC THEORY KNOWLEDGE TO BACK UP YOUR FLYING SKILLS

Pilots wanting to maintain their Instrument Flight Rules (IFR) currency are required to pass an Instrument Proficiency Check every 12 months. Even if your practical instrument flight training and knowledge is up to date, it's common for a pilot's IPC theory knowledge to lapse.

The IPC Theory Refresher course is a time and cost effective way to refresh your theory knowledge. The course is delivered as a single 80min video session presented by an experienced Flight Instructor, and accessible online. For those that require extended or more specific learning, we offer subscribers discounted online theory sessions with a Flight Instructor.

With the theory knowledge to back up your flying skills, you can approach your IPC test with full confidence. If you require flight training in addition to the theory component, we recommend considering our IPC Refresher Course, which includes practical flight training as well.

IPC THEORY REFRESHER COURSE SYLLABUS

IFR PILOT REQUIREMENTS

Privileges and limitations of the Instrument Rating and associated endorsements, IFR currency, IPC requirements, IFR recency and single pilot operations.

OPERATIONAL REQUIREMENTS

Take-off minima, holding and alternate minima, operations below LSALT/MSA, airspace classifications and procedures.

INSTRUMENT DEPARTURE & APPROACH PROCEDURES

IFR Departures, SIDs and STARs, 2D and 3D IAPs, CDI and azimuth guidance, visual circling, holding and missed approach procedures.

METEOROLOGY

Operational meteorology, meteorological minima, aviation forecast and reports.

IFR FLIGHT PLANNING

Aircraft instrument requirements, IFR navigation, route requirements, GNSS and PBN standards, and communication failures.
